

# **ROADS AND TRANSPORT GROUP REPORT FOR TEDDINGTON SOCIETY ANNUAL GENERAL MEETING 17<sup>th</sup> APRIL 2007 – SUMMARY (see Society Website for full report)**

The R&T Group Report covered a wide range of issues, including:-

## **1. Teddington Police Custody Suite – additional borough cells still a possibility**

## **2. Teddington Town Centre Improvements Study 2001/2002 – outstanding issues**

## **3. Further Controlled Parking Zone (CPZ) consultation to take place**

Councillors at the Area Consultation Meeting have been asked to ensure that the Study Parking sub-Committee members and the Teddington Society R&T Group members are consulted about the content and design of voting documents, and the area chosen, to avoid possible future disputes and confusion. Only 6% of households want CPZs in Teddington – support highest immediately around the station.

## **4. Teddington Society long standing policy on Controlled Parking Zones**

The Teddington Society's policy on CPZs is that:-

- they should only be introduced as a last resort when all other options to alleviate serious parking problems have been tried and failed;
- the CPZ boundaries should be tightly drawn to minimise vehicle displacement;
- they should not include "Community" parking spaces (i.e. spaces that are not outside property frontages, but on flank walls, along park boundaries, or by railway lines etc.);
- they should normally include some free short term turnover parking spaces;
- they should normally be limited to two hours, timed to suit local residents; and
- they should be designed to minimise adverse effects on local shopping centres by ensuring that some free, or low cost Pay & Display visitors' spaces are available.

## **5. Teddington CPZ consultations rounds 1 and 2 – displacement still a problem**

### **5.1 Round One – 599 votes and one petition go missing**

### **5.2 Round Two – much better, but support below qualifying criteria**

## **6. Yellow line and corner safety and accessibility review – more delays**

## **7. New policy on CPZ parking charges - an end to Gas Guzzlers??**

## **8. Crossrail and Airtrack – Teddington Society replacement proposals**

## **9. Cycling – new routes and tracks**
